& Behavioral Pediatrics

President's Bulletin

INSIGHTS AND UPDATES FROM DR. BOB VOIGT

www.sdbp.org

Dear colleagues,

SDBP has been extremely busy since our Fall Annual Meeting! As 2025 comes to a close, I wanted to share some of the new and ongoing initiatives that we have been working on. Here are some highlights:

New Board Position

I would like our members to welcome our newest board member, Emily Wassmer, MD, a Developmental-Behavioral Pediatrics Fellow at the Children's Hospital of Philadelphia, who joins the board as our "inaugural" Trainee/Recent Graduate Representative.

SDBP Grand Rounds

In 2025, we implemented the SDBP Grand Rounds to help provide high-quality, clinically relevant education to our members, especially to those who do not have access to regular DBP continuing education sessions. For those who have not been able to attend, below is a list of our SDBP Grand Rounds presented so far:

- "The Psychopharmacology of Autism Spectrum Disorder for Developmental-Behavioral Pediatricians" with Christopher J. McDougle, MD
- "Etiologic Evaluation of Neurodevelopmental Disabilities: Diagnosis in Context" with Steven M. Lazar, MD, MED
- "ABA: Myths & Evidence" with Dorothea Lerman, PhD
- "Accurate Diagnosis of Speech Sound Disorders and Evidence-Based Recommendations" with Becky Baas, M.A., CCC-SLP
- "Building Belonging: The Power of Inclusive Employment and the BeanZ & Co. Story" with Co-Founder, Kim Morrison
- "Racism: A Driver of Child Development, Behavior, and Health" with Adiah Spinks-Franklin, MD, MPH
- "Learning Disorders" Sheryl Frierson, MD, MEd
- "Please Prescribe My Child Leucovorin!": What Providers Should Know" with Thomas Challman, MD

Recordings and session slides for all of these SDBP Grand Rounds sessions are currently available as a MEMBERS ONLY benefit on our SDBP website (<https://sdbp.org/sdbp-grand-rounds/>), and in 2026, we will be offering CME for SDBP Grand Rounds attendees. Stay tuned!

SDBP Communications

Alyssa Hobbs, SDBP's current Association Manager, will take on the additional role of Communications Manager and SDBP will onboard an additional staff to alleviate some of Alyssa's current work. Alyssa will work closely with a seasoned, senior Degnon Communications and Marketing Specialist on creating and implementing a comprehensive marketing plan to increase member engagement, organizational coherence, and SDBP's visibility that will align with our strategic plan.

Advocacy Efforts

SDBP continues to address misleading healthcare claims by developing our own society statements (and endorsing others) that impact the developmental-behavioral pediatric healthcare workforce, access to services, and the well-being of the children and families we serve. Our recent statements include:

- *SDBP Statement on Tylenol, Leucovorin, and Autism*
- *SDBP Statement on DOE "Professional" Program Classification*

These statements can be found in their entirety on the website: <https://sdbp.org/sdbp-statements/>.

SDBP Clinical Practice Guidelines

Following the successful launch of our initial SDBP Clinical Practice Guideline for the Assessment and Treatment of Children and Adolescents with Complex ADHD (available to members on the website: <https://sdbp.org/adhd-guideline/cag-guidelines/>), SDBP members have begun working on two new evidence-based clinical practice guidelines:

- *Transition to Adulthood for Youth with Neurodevelopmental Disabilities*
- *Developmental and Behavioral Follow-up Care for NICU Graduates*

Accolades

Congratulations to SDBP members who have made us proud through their recent receipt of NIH Autism Data Science Initiative grants:

- Judith Miller and Kate Wallis at the Children's Hospital of Philadelphia for "Genomic and Exposomic Factors in the Cause and Rise of Autism"
- Katie Zuckerman, Ben Sanders, Erika Phelps Nishigushi, and Olivia Lindly for "Advancing Success & Developmental Outcomes in Autism Spectrum Disorder through Analysis of Secondary Data"

End of Year Giving

As you plan your end of year giving, I encourage you to consider SDBP to help sustain these valuable efforts that ultimately support the growth of our field. You can do so by clicking [here](#).

Winter Virtual Meeting

Be sure to join us virtually for the 2026 SDBP Winter Conference on Friday, February 20 for a full day of plenaries, workshops, and long-term access to session recordings. [Register now!](#)

Gratitude

Given how extremely busy everyone is with their "real jobs," it amazes me how SDBP members routinely extend extra effort for the benefit of our Society. Special thanks to:

- Carol Weitzman, Rebecca McNally Keehn, and Cy Nadler, primary authors of our SDBP Statement on Tylenol, Leucovorin, and Autism
- Dinah Godwin and Jennifer Cervantes, primary authors of our SDBP Statement on DOE "Professional" Program Classification

- All leaders and members of our Committees, SIGs, and Sections for their continued work on our Strategic Plan Initiatives
- Janice Wilkins, Alyssa Hobbs and Daglyn Carr of Degnon Associates – all activities of the SDBP would come to a grinding halt without their superb professional management!!

As we close out 2025, I would like to wish each of you and your families a very happy holiday season and a healthy new year, and I very much look forward to all that we will accomplish together in the year ahead.

With thanks,
Bob Voigt, MD
President, SDBP
