SDBP Educational Resources Hub

<https://sdbp.org/educational-resources/>

This website was created by members of the Society for Developmental and Behavioral Pediatrics (SDBP) based on a needs assessment of members. This is a space to **share** developmental-behavioral pediatric and psychology education resources. The target audience is **educators** looking to design curricula for different types and levels of trainees. There are educational materials available for practicing providers, parents, families and patients as well. A goal of this hub is to provide resources to encourage design of **inclusive** curriculum, providing a diverse group of learners with multiple means of engagement.

Here you will find

- Topic-specific resources (e.g. autism, ADHD, anxiety)
- Seminal article lists
- DBP curricula for various levels of learner (residents, fellows, advanced practice providers)
- Resources for building your own curricula
- Ideas for fun activities (book clubs, movie nights, field trips, games)
- A list of providers available to give virtual lectures
- Recordings of past "Invite a Lecturer" talks
- Websites with resources for multiple DBP-related topics
- Information about the practice of DBP
- Feedback forms for suggestions for improvements and additions to the website
- *And much more!*
